Pre-Kindergarten 4-5 YO

Pre-K provides a stimulating and enriching environment. There is a combination of whole group and small group learning activities that allows the children to develop as cooperative learners. Pre-K children are nurtured emotionally, socially, and academically to achieve their potential and feel valued as learners. Teaching children respect and responsibility for others, themselves, the classroom and shared space. Establishing and sustaining long lasting positive relationships, Develop the skill of more independent learning and advanced problem solving.
