

# Enrichment Time

All classes will participate in *Enrichment Time*, held twice a week for half an hour. This program fosters creativity and imagination through play. The children will engage in games that supports teamwork, problem-solving skills and gross motor development. Science experiments will also be conducted, teaching how to predict, experiment and analyze results. Furthermore, they will have the opportunity to create individualized artwork using various tools and techniques. The children eagerly anticipate *Enrichment Time*!
