

**Our Objective is to guide students towards Becoming Self-Learners and Independent Reader!**

Teaching healthy study habits is no different from helping to acquire a healthy lifestyle attitude. We strive today, as always, to nurture Bridge Academy students into self-motivated learners who value learning, enjoy its pleasures, and strive for higher levels of education.

**Eun Sil Kim,**  
**Director of Bridge Academy**

**Office Hours:**

**4pm -8:00pm Monday to Friday**  
**9am -12 noon Saturday**

**Enrollment Acknowledgment**

1. The BIG-Q program comprises two components: the BIG-Q Intensive program (conducted daily) and the Afterschool BIG-Q program (held on weekdays, aligned with the student's academy attendance schedule). Although both programs share common objectives, they differ in their methods of delivery and frequency. For more information, please consult the academy's website or contact them directly.
2. Personal Wizard Reading sessions are included in the Afterschool program once per week for 30 minutes. Any additional sessions or plans will require separate purchase.
3. Please be aware that attendance for Afterschool sessions cannot be altered arbitrarily beyond the initially scheduled days determined at enrollment. This limitation arises from the inability to adjust the schedules of tutors assigned to specific groups.
4. Monthly fees are required in advance by the end of each month to cover services for the subsequent month.
5. Once a student attends a class session, the monthly fee becomes non-refundable.

## We Cultivate Study Habit for Our Students' Success!

Two unique methods that set our Afterschool program apart: fostering a positive learning mindset (BIG-Q Tutoring) and encouraging proactive reading habits with independent book reading, known as Wizard Reading

**All BRIDGE AFTERSCHOOL students benefit from the approach of BIG Q TUTORING, where factors hindering their academic achievement are analyzed and efforts are made to consistently improve them, ultimately helping to internalize healthy study habits.**

### Wizard Reading

“The students who engaged in reading self-selected literature for pleasure would average higher grades in English, Mathematics, science, and history than their non-reading peers.” - C.W. Sam. The Journal of Multidisciplinary Graduate. Research.

**Using our research and experience, we provide our unique Wizard Reading program to all Bridge Academy students..**

Wizard Reading enhances students' academic performance in three key areas:

1. Solid reading comprehension, the foundation for success in every class.
1. Voluntary learning mindset - Independent readers reinforce independent learning attitudes.
1. Helps to Build a Confidence in Public Speech
