About the ENRI-East research project (www.enri-east.net)

The Interplay of European, National and Regional Identities: Nations between states along the new eastern borders of the European Union (ENRI-East)

ENRI-East is a research project implemented in 2008-2011 and primarily funded by the European Commission under the Seventh Framework Program. This international and inter-disciplinary study is aimed at a deeper understanding of the ways in which the modern European identities and regional cultures are formed and inter-communicated in the Eastern part of the European continent.

ENRI-East is a response to the shortcomings of previous research: it is the first large-scale comparative project which uses a sophisticated toolkit of various empirical methods and is based on a process-oriented theoretical approach which places empirical research into a broader historical framework.

The distinct ethno-national diversity in this region, along with the problems resulting from it was generated by dramatic shifts of borders, populations and political affiliation which have continued until today. The prevailing pattern of political geography of this part of Europe was the emergence and the dismemberment of empires, a process which created ethno-national enclaves within the boundaries of new nation states. These minorities were frequently drawn into inter-state conflicts and subjected to repression, ethnic cleansing and expulsion. The subjects of interests were ethnic minorities in the supra-region "Wider Eastern Europe", i.e. the region between the Baltic Sea and the Black Sea, along the current geo-political "East-West" division line. Estimated 8 to 10 millions of people are affected by "ethnic splits" or minority groups, whose ethnic compatriots would constitute a titular majority in another country, some of them even on each side of this contemporary geopolitical east-west diving border line.

The complex ENRI-East study was designed as a comprehensive set of theoretical, methodological, empirical and comparative work streams exploring the interplay of identities among the twelve ethnic minorities in the supra-region of Central and Easter Europe. These ethnic groups are: Russians in Latvia and Lithuania, Belarusians and Ukrainians in Poland, Slovaks in Hungary, Hungarians in Slovakia and in Ukraine, Poles in Ukraine, in Belarus and in Lithuania, Belarusians in Lithuania as well as Lithuanians in Russia (Kaliningrad oblast). The project includes also a case study of Germany, where our target groups were the ethnic Germans returning to their historical homeland after the centuries of living in other European countries as well as Jewish immigrants (so called "quota refugees" who had moved to the country since 1989).

ENRI-East addresses four general research themes. The first one deals with the interplay of identities and cultures by comparing 'mother nations' and their 'residual groups abroad'. The second theme is a cross-cutting approach which addresses the nations and the states: more exactly, the attitudes and policies of 'mother nations' and 'host nations' toward the 'residual groups' and vice versa. The third research theme comprise the reality of self organization and representation of "residual groups abroad" (ethnic minorities) along the East European borderland. Finally, the last research theme of the project deals with path dependencies, historical memories, present status and expected dynamics of divided nations in Eastern Europe.

The empirical data base for ENRI-East was generated through 5 sub-studies implemented in all or several project countries:

- ENRI-VIS (Values and Identities Survey): face-to-face formalized interviews with members of 12 ethnic minority groups in eight countries, 6,800 respondents;
- ENRI-BIO: qualitative, biographical in-depth interviews with members of 12 ethnic minority groups in eight countries (144 interviews);
- ENRI-EXI: semi-structured expert interviews with governmental and non-governmental representatives of ethnic minority groups in eight countries (48 interviews);
- ENRI-BLOG: online content analysis of weblogs and Internet periodicals run or maintained by ethnic minority group members;
- ENRI-MUSIC: special study on cultural identities and music; an innovative, multi-disciplinary pilot effort in Hungary and Lithuania.

The series of ENRI-East research reports (www.enri-east.net/project-results)

Main outcomes of the ENRI-East research program are summarized in the series of research papers and project reports as outlined below. The whole collection of papers will be publicly available on the project web-site by December 2011, while some papers can be accessed since September 2011.

Individual papers are written by ENRI-East experts from all project teams and the whole series is edited by the Coordinating Team at the CEASS-Center at the Institute for Advanced Studies under the guidance of the Principal Investigator Prof. Hans-Georg Heinrich and Project Coordinator Dr. Alexander Chvorostov.

Summarizing and generalizing reports

1. Theoretical and methodological backgrounds for the studies of European, national and regional identities of ethnic minorities in European borderlands (Edited by Prof. Claire Wallace and Dr. Natalia Patsiurko)
2. Interplay of European, National and Regional Identities among the ethnic minorities in Central and Eastern Europe (main results of ENRI-East empirical program) (Edited by Prof. Hans-Georg Heinrich and Dr. Alexander Chvorostov)
3. ENRI-East Thematic Comparative papers and synopsis of authored articles of ENRI-East experts (9 tender papers and further bibliography of project-related publications)

Q-28: Fears related to socio-political and cultural standing of respondent's ethnic group related to the factual or eventual joining the European Union (BATTERY)

Original formulation in the ENRI-VIS master questionnaire:

Q28 Some people may have fears about the future of Europe and the European Union [NOTE: for non-EU countries then ask only EUROPE]. I'm going to read out a list of things which some people say they are afraid of. For each one, please tell me if you - personally - are currently afraid of it, or not?

- a) The loss of [ethnic minority group] identity and culture
- b) An increase in drug trafficking and international organized crime
- c) The loss of social benefits
- d) The loss of [nationality of receiving country] national identity and culture
- e) More difficulties for ethnic and national minorities

Name of the settlement:

Name of the county/district:

START OF THE INTERVIEW:month day2009.o'clockmin.

"Good morning/afternoon/evening! My name is [NAME]. I am an interviewer for [INSTITUTION]. [ADD DESCRIPTION IF NECESSARY, *HAND OVER BUSINESS CARD AND STUDY DESCRIPTION*]. The [INSTITUTION] is conducting a study about ethnic and national minorities in [COUNTRY] and the study is carried out by partners in many other countries. The study is supported by the European Union's research program. We are interested in the identity of members of [ETHNIC MINORITY GROUP]. You and your household have been selected for an interview by random sampling and therefore it is really important that you agree to the interview. All your responses and all your other information will be treated completely anonymously and confidentially. The interview will last for approximately 45 minutes.

Before starting the interview we should determine the person for interviewing.

INT.: YOU MUST SELECT A RP WITH THE FOLLOWING CHARACTERISTICS:

- CONSIDER THEMSELVES TO BE (ETHNIC MINORITY GROUP),
- HAVE LIVED IN THE RECEIVING COUNTRY FOR MORE THAN ONE YEAR,
- AGED OVER 18 YEARS,
- NOT MENTALLY DISABLED,
- WHOSE BIRTHDAY IS THE CLOSEST TO THE DATE OF THE INTERVIEW

SCREENER:

S1. Is there anyone in this household who considers himself/herself a [ethnic minority group]?

- 1- yes
- 2- no [INT: THANK & CLOSE]

S2. I am interested in the [ethnic minority group], who have lived in [RECEIVING COUNTRY] for MORE THAN ONE YEAR. Are there such people in your HH?
