

## Next Breath & WFF 2021

### From Water to Air; Scientific Pathways towards a Clearer, Cleaner Future.

**Göran Tomson**

Counselor Presidents Office UN Agenda 2030 KI & senior advisor, SIGHT, Professor of International Health Systems Research, Karolinska Institutet.

**Talk Title** — The need for multisectoral action for human and planetary health

*"Global Health needs the 3 i's=  
interdisciplinary and implementation research as well  
as intersectoral approaches."*

Göran Tomson

Göran is a Professor of International Health Systems Research, at the Karolinska Institutet. He is a Counselor UN Agenda 2030 at the President's office. He is a co-founder and a Senior Advisor at the Swedish Institute for Global Health Transformation (SIGHT) at the Royal Swedish Academy of Sciences. Visiting Professor at Shandong University in China. Since 2019, Distinguished Fellow at the George Institute for Global Health<sup>1</sup>, linked to UNSW Sydney and Imperial College.

His extensive research and policy work focuses on universal health coverage and has been conducted in countries such as China, Kenya, Lao PDR, Sweden, Tanzania, Uganda, Vietnam, and Zambia. His experience in the field of health policy and systems research has led to his serving in global health research council committees in the Netherlands, Norway, and Sweden. He is also the co-founder and a senior advisor to the ReAct Network on antimicrobial resistance.

Along with his research and advisory work, Göran also teaches health systems and policy courses at the Masters and PhD levels. He is passionate about capacity building, had 35 PhD students, and has been mentor to many others.
