

Fireworks are Scary!

More pets are lost on July 4th than any other day of the year.

Keep your pets safe by following these steps:

- ✿ Make sure your pets are wearing current ID tags
- ✿ Microchip your pets and keep information current
- ✿ Keep your dog indoors during fireworks
- ✿ Never leave pets unattended even in a "secure" yard
- ✿ Have current, clear photos of your pet on hand, just in case
- ✿ Play music or TV to help drown out the noise from the fireworks
- ✿ Coddling a frightened animal will reinforce their fear;
- ✿ Instead, try playing games or exercising to distract them.
- ✿ Animals typically run away in the opposite direction of the noise
- ✿ Always check with your local shelter if your pet is missing
