or

 [Call 1-800-222-1222](#)

Call 911 right away if the individual collapses, has a seizure, has trouble breathing, or can't be awakened.

Need help identifying a pill?

Mixed up your meds? Found a loose pill?
Worried that your refill looks different?
Fortunately, most medications can be identified from the letters and numbers imprinted on the pill.

Tip of the Day

If dogs eat chocolate, vomiting, hyperactivity, diarrhea, seizures and even death can follow. The poison is *theobromine*, present in greater concentrations in darker chocolates. Keep all chocolate away from your dog. If some is swallowed, call Poison Control to see if the amount swallowed will be a problem.
