ADD TO WISH LIST

- **Fight Off Corrosion:** Making sure you get an HVAC system that contains corrosion-resistant coils is important for system life. This heat pump includes an all-aluminum Micro-Channel coil to fight instances of coil leaks caused by corrosion.
- **Trusty Galvanized Steel:** For exceptional corrosion protection, choose Maytag. This heat pump is protected from damage with a galvanized steel shell coated in a corrosion-resistant, polyester-urethane finish.
- **Correct System Matching for Increased Efficiency:** When paired with an air handler with an energy-efficient motor or an iSEER®-capable gas furnace, this heat pump can achieve maximum efficiency.
- **Unit Meets EPA Efficiency Guidelines:** The EPA uses ENERGY STAR as a rating system for appliance efficiency. Select sizes and matches of this particular heat pump qualify as ENERGY STAR efficient products.
- **Accountable for High Performance:** For premium quality assurance, this unit is checked over 144 times.

Exceptional energy-efficiency is achieved by the Maytag® M120 MSH1BE air-source heat pump. When you properly match this heat pump with Maytag® furnaces or air handlers with energy-efficient motors, you can expect maximum efficiency and premium performance. In addition, it contains durability features that resist corrosion and aid in extending the lifespan of your unit.
