ABOUT CHRISTINE ROBERTS

I've been passionate about design and creating since I was very young. I grew up hanging out in my dad's workshop - making things on the lathe and learning about how things are built.

My company specializes in full service Interior Design and we pride ourselves on maintaining excellent relationships with trades, sources & our clients.

Whether you're interested in a kitchen or bath redesign, or even a full-house renovation, we have the knowledge, and skillset to see your project through to completion.

LET'S WORK *together*

WHAT WE'RE KNOWN FOR

We are known for redesigning spaces to make them work better, especially in older homes. We specialize in creating functional and interesting spaces that flow well and look amazing. Your lifestyle is carefully considered and how you use your home is the driver behind all our design concepts. We love to source one of a kind, vintage pieces and integrate them into your home for a truly curated, unique look.

We pride ourselves on only hiring the best people and using materials of high quality. We take your home seriously and want you to enjoy it for many years to come.

WHAT WE BELIEVE IN

We believe that design is only part of the process of building a home.

Ensuring your home meets all your needs now and can grow with you as those change. The quality of the materials selected also plays a significant role and can't be overlooked.

We also strive to use eco-conscious choices where at all possible to limit our footprint on the environment.

Together, our design combined with the right materials and working with the right people who do quality work makes for a winning combination. The result is a home that will stand the test of time, both aesthetically and functionally.

OUR PHILOSOPHY

Design needs to work in a way that creates a space where you feel fully at home and that is a reflection of your unique personality and lifestyle.

We love to gather inspiration from all around us but your home should be unique and authentic to just you. We will take some cues from styles you love but mostly we want to understand your preferences. Our only goal is to create a space that you feel truly reflects you.

While it's not easy to accomplish this goal (and there may be a lot of conversations along the way), we know how to curate spaces without doing what everyone else is doing. We're not happy with cookie cutter and we don't want you to be either.

WHAT MAKES US

different

OUR RELATIONSHIPS WITH CLIENTS

You're our number one priority. Everything we do is focused on your needs. Some of our clients have said we know them better than they know themselves. That's the highest compliment we can be paid.

Our relationship with clients are built on honesty and trust. If there's ever any time that you feel uncertain or confused, we want to know. It's our job to keep you up-to-date and comfortable with the entire process. Design is not an easy undertaking but we hope to make it meaningful for you, not just at the end of the journey but throughout the process.

Since we value relationships above all else, we begin discovery with an inquiry meeting to ensure that we're the right fit. When we're aligned as a team, magic can happen.

OUR RELATIONSHIPS WITH VENDORS

Every piece of furniture or slab of tile we recommend has to be vetted by us first. Our vendors play a crucial role in the design of our homes but also the integrity of materials. Our partnerships with them are about trust.

We don't purchase online and we don't work with vendors we haven't vetted. That means we aren't the right fit for everyone. All of the sourcing and purchasing must be handled by our team in order for us to stand behind our work.

We recognize that this isn't a great fit for everyone but we do believe in honest transparency and it starts here.

The materials you select will be in your home for many, many years. We believe our job is to ensure that they stand the test of time and the quality is always A+.

WHAT OUR CLIENTS

say

Christine helped me
with a complete
transformation of my
condo.

From the initial
consult to the final
install day, she
managed the project
and kept things
organized.

Moira Y.

Christine's work was
pivotal in envisioning
a redesign of my
condo. She has a
strong vision and is
also extremely good
at sourcing
interesting pieces
that add character
any home.

Kimberly R.

Working with Chris was an amazing
experience from beginning to end.

She helped us reimagine a space
that was under utilized. She listened
to our ideas, understood what we
were trying to accomplish,
considered our budget and gave us
several options to choose from.

Chris is a true, passionate design
professional. I appreciated her direct
and timely approach.

Gwen D.

I have had the pleasure of working
with Chris on several projects over the
years. She is exceptionally talented,
incredibly skilled and endlessly
creative. She crafts the most unique
spaces and brings her exceptional
attention to detail to every project.

On several occasions, she has
somehow managed to conceptualize a
space that reflects exactly what i
wanted even though i couldn't quite
articulate what that was. She does so
more than design beautiful spaces -
she creates an experience.

OUR SERVICES

01

Full Service Interior Design

Our full-service design is our signature service. With this you get design services as well as every trade needed to complete the vision. We work with only the best in the field so that your home will be built to perfection. We can also work with any skilled professionals that you may have sourced, been recommended to or worked with prior.

02

Kitchen Design

This can be a stand-alone service or an add-on to our build and renovation services. We work with you to determine your needs, preferences and budget. From there we create unique designs that are timeless and luxurious.

03

Bathroom Design

From the smallest powder room to a principle retreat, we can handle any bathroom. We'll design the space that wakes you up in the morning and gets you ready for rest every evening.

04

Styling to Stay

Staging homes to sell is now common practice. Why not style your home to stay? If you need a refresh in your home to make it more reflective of yourself and your lifestyle we can help with this. You purchase blocks of time, schedule the hours and we help you achieve your best home's potential.

next steps

I know all of this is a lot to think about and it's a big investment in your home. Hopefully this guide has helped to answer some of your questions. We want every design project to feel special and be an experience you look back on fondly for many years to come.

Below are the steps you will take if you decide to work together. We look forward to speaking to you soon!

Christine

STEP 1	<h3>Initial Design Consultation</h3> <p>Let's meet in your home to go over the entire process. We want to make sure you are fully informed about what will be involved in the design of your space before the day arrives.</p>
STEP 2	<h3>Fee Estimate Proposal</h3> <p>Once we have gathered all the information about your project we will put together the fee proposal for the entire project.</p>
STEP 3	<h3>Project Begins</h3> <p>Once the contracts have been signed and the deposit has been paid we're ready to start designing. We'll schedule an initial meeting to talk timelines and get down to work.</p>

FREQUENTLY

asked questions

How long will my project take?

That depends on the complexity of your project as well as trade availability. Once we have met we will be able to give you a more detailed timeline.

What if I need to pause?

Projects that are paused must be done via written notice. Once you have paused, you will be considered a new project and will be scheduled at our soonest available time.

What if my budget changes?

If your budget changes in a way that will alter the designs, we will call a meeting between all key members involved and discuss how to best proceed.

How often do we meet?

Each project is different. We will provide you with key dates, including meeting schedules at the onset of the project.

What if I don't like the design?

Our designs are prepared after careful discussions with you and we do our best to articulate a design that reflects your needs. We will offer you 2 rounds of revisions to get the design perfect for you.
