Bubbles & Business Ladies Networking Collective

Empower | Collaborate | Create | Community

The Bubbles Belief

Plain and simple! We, together, cultivate relationships to build each other up, share ideas and build wildly successful businesses. We are a community of women whose goal is to empower each other, present opportunities, and build relationships in order to help each other succeed in business and in life.

We provide members with resources, networking, marketing, promotion, coaching, events, and support. We encourage the DREAMS of others through online and in-person networking. Behind every successful woman is a community of women that have her BACK!!!

The Bubbles Benefit

Our primary focus is helping you land more customers, market and promote what you have to offer and provide you with access to the resources you need to thrive. We know women who are successful in business can give and be more for their families, communities and themselves. We are a community of women who have a culture of giving first!

Meetings:

First Thursday 4-6 PM

Connect with who invited you for location or email Tracie Jones at traciejones@beboutiquepr.com
