## Why Triple J?

### EXPERIENCE

Triple J is a family owned and operated business. We're a third generation business 75 years strong. We understand the wood and timber industry inside-out. We seek to earn your business and keep it through our experience in the trade, the quality of our product, our commitment to deliver, and the customer service experience we provide.

### VERTICALLY INTEGRATED

We buy standing timber, operate logging crews, and work with a vast network of partner loggers to supply our mills. We operate multiple sawmills, generating material to feed our uniquely designed, high capacity, mat production line. We sell mats to many well known mat suppliers and direct to customer. We're in control from start to finish.

### LOCATION

We're located in the heart of the Southeastern US with nearly unlimited access to quality mat material. Our mats are easily delivered by truck, rail, or barge. If you need mats in the US, we will provide them at a cost effective rate.

### COMMITMENT TO DELIVER

We commit to orders we can deliver. This is our reputation across the industry. With the optimization of all aspects of our mat production line, we can commit to large quantity mat orders. With Triple J, you can have confidence your project will have our products when needed.
