

05/02/2023

Since switching over in February to Champion we have not had any issues with their service. Chad is very knowledgeable with the software. We were having issues with Fusion and with Spectrum who could not figure out what the problem was, and who would not send a technician to our office to personally, inspect and determine what was going on. Chad came in and he immediately figured out the problem, and what needed to be done. We then went with Champion, and he came in and installed all the phones and got them set up just as we wanted. If ever we have a problem, or if we just have a question, he is very quick to respond and take care of what we are needing.

We are very satisfied with the service, and we highly recommend Champion.
