

GMD Process Equipment *Engineered for Energy since 1983*

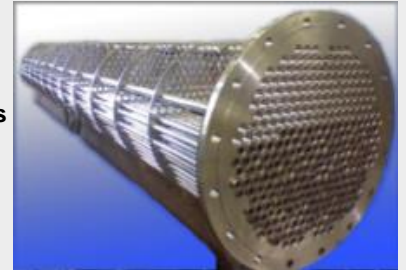

Design, Fabrication, Installation & Refurbishing of Midstream Equipment

Heatran Exchangers

- * Shell & Tube Heat Exchangers * Air-Cooled Heat Exchangers * Stabilizing Reboilers & Chillers
- * Fin Fan Heat Exchangers - Forced or Induced Draft * Hairpin “U” Type Exchangers
- * Indirect Fired Line & Bath Heaters

Over 25 years covering all aspects of engineering, fabrication, and quality control of Shell & Tube heat exchangers, air coolers, and reboilers. Member of HTRI (Heat Transfer Research Institute) and Aspentech.

Using proprietary design methodologies, Heatran has established a reputation of providing engineered packages in days instead of weeks.

Complete ASME Vessel Shops “R” “S” and “U” Stamps

- * Slug Catchers * Three-phase Separators * Filter Coalescer & Centrifugal Separators
- * Condensate Stabilization Units * Pig Trap Customization for Smart Pigs * New Customized Pig-Traps
- * Metering Skids * H₂S Scavenging * Gas Filter Separators * Replacement Coalescing Filters
- * Flash Recovery Vessels * Vapor Recovery Units & Towers * Test Separators, Skid & Trailer Mounted
- * Joule-Thompson (JT) Units * Fractionators * LNG Plants Skid-Mounted * Incinerators * Fired Systems
- * Amine Reboilers * Hot Oil Systems * Heater Treaters * Direct-fired Heaters * Reaction Furnaces * Tail Gas Incinerators
- * Heat Recovery Units * High-performance Burners * Molecular Sieve Units * Glycol Dehydration Units * Glycol Reboilers
- * Glycol Offgas (BTEX) Units * Skidded Dehydration, Amine & Cryogenic Treatment Units * Flares for oil and gas systems

**Manufactured Equipment to ASME “U” & “S” Boiler & Pressure Vessel Code Section VIII, Div. 1
Segregated stainless steel and carbon steel bays.
National Board Registration and Repair Services & “R” stamp**
