

GMD Marketing LLC *Engineered for Energy* www.GMDMarketing.com

Design, Fabrication, Installation & Refurbishing of Midstream Equipment

When I founded GMD, my goal was to help clients combine multiple manufacturers into one project hub. I represent multiple engineer-owned manufacturers in Texas and Oklahoma, enabling me to quote every aspect of even the largest projects.

⚡ Equipment for LNG Applications

- **Gas Pre-Treatment & Purification**
 - Complete Amine Systems (CO₂ & H₂S removal)
 - Glycol Towers & Regen Skids (gas dehydration)
 - Filter & Mist Pad Separators • Cyclone / Centrifugal Separators • Vane Pack Separators
 - 2- & 3-Phase Separators (feed gas conditioning)
- **Heat Transfer & Cryogenic Support**
 - Shell & Tube Heat Exchangers • Fin-Fan Air Coolers • Kettle Reboilers
 - ASME Pressure Vessels (cryogenic-rated designs)
- **Process Systems & Modular Skids**
 - Line Heaters • Structural Steel & Piping Skids • Pipe Spools
 - Pig Traps (pipeline integrity for LNG feed gas)
- **Safety & Environmental Systems**
 - Flares (safe disposal of boil-off gas)
 - Incinerators for Organic Waste Liquids
 - MBR Wastewater Recycling (terminal environmental compliance)
- **Engineering & Specialty Fabrication**
 - Facility & Pipeline Design • Div. 1 & Div. 2 Vessel Design
 - Spiral Wound & Non-Asbestos Gaskets • Custom Metal Hoses

◆ Equipment for Natural Gas Processing

- **Gas Conditioning & Separation**
 - Amine Systems (acid gas removal)
 - Glycol Towers (dehydration)
 - 2- & 3-Phase Separators • Tray Towers • Mist Pad & Cyclone Separators
- **Heat Transfer Systems**
 - Shell & Tube Heat Exchangers • Fin-Fan Air Coolers • Kettle Reboilers
- **Pipeline & Facility Support**
 - Line Heaters • Pig Traps • Pipe Spools
 - Direct-Fired Heaters • Structural Steel Skids
- **Environmental & Safety**
 - Flares • Incinerators • Wastewater Recycling Systems

Equipment for Crude Oil Processing

- **Separation & Treatment**
 - 2- & 3-Phase Separators (oil/gas/water separation)
 - Vane Pack Separators • Tray Towers • Filter Separators
 - **Heat Transfer & Refining Support**
 - Shell & Tube Heat Exchangers • Kettle Reboilers
 - Direct-Fired Heaters • Fin-Fan Air Coolers
 - **Process Systems & Skids**
 - Test & Production Separators • Structural Steel & Piping Skids
 - ASME Pressure Vessels • Custom Metal Hoses
 - **Engineering & Fabrication**
 - Facility & Pipeline Design • Div. 1 & Div. 2 Vessel Design
 - Pipe Cutting & Beveling Equipment • Torque Wrenches
-

GMD's engineering and manufacturing teams collaborate to deliver projects of any scale—from individual skids to full plant builds.

Facility Highlights:

- **Houston:** Three separate 20,000 sq ft buildings, isolating stainless fabrication from carbon steel to mitigate cross-contamination.
- **Tulsa:** 15-acre campus with 25,000 sq ft of indoor manufacturing space.

Facility tours are always welcome—we'd love to show you around.
