Centrifuge Operator/Dredge Operator

RELIANT OILFIELD CONSULTING INC. | BLAIRMORE, AB

EXPERIENCED PEOPLE **DRIVING A** CLEANER TOMORROW

ABOUT THE POSITION

Reliant Oilfield Consulting Inc. is currently seeking experienced Centrifuge Operators and Dredge Operators for projects across Canada. We are looking for skilled and reliable individuals with experience in centrifuge operations, including three-phase oil separation, two-phase separation and dewatering. We are also seeking experienced dredge operators for various project locations.

This is an excellent opportunity to join a growing company that values safety, professionalism and a strong work ethic. If you have the experience and certifications, we want to hear from you.

KEY RESPONSIBILITIES

Centrifuge Operator

- Operate and monitor centrifuge equipment for three-phase oil separation, two-phase separation and dewatering.
- Perform routine operation checks and basic maintenance.
- Ensure safe and efficient operation in accordance with project requirements and environmental standards.

Dredge Operator

- Operate dredge equipment for various project locations.
- Monitor equipment performance and maintain efficiency.
- Follow site procedures and safety protocols.
- Work collaboratively with the project team to achieve production and environmental goals.

REQUIREMENTS

- Previous experience in centrifuge or dredging operations.
- Oil and gas experience preferred (1 year minimum).
- Valid First Aid certification.
- Valid H2S Alive certification.
- Valid CSO (Common Safety Orientation) certification.
- Ability to travel to project locations across Canada.

POSITION DETAILS

- Full-time
- $100,000 – $135,000 per year
- Travel to project locations across Canada

HOW TO APPLY
