ABOUT DR. PERRY

Dr. William Dodge Perry is an optometrist and partner at Nova Vision Center in Falls Church, Virginia. For more than 15 years, he has cared for patients with ocular disease, reading-related vision concerns, specialty contact lens needs, low vision, and visual symptoms after concussion.

Dr. Perry makes complex eye and vision topics clear, practical, and useful for everyday audiences. He has presented on concussion management, artificial intelligence in optometry, aging-related eye conditions, prism prescribing, and vision and learning.

PRESENTATION AT A GLANCE

- 30-60 minute educational programs
- In-person or virtual options
- Q&A; included
