

Pre Nursing/Medical Assistant Accelerated Program

Seeds of Success – Advancements Unlimited

Who is this program for:
7-10 selected students

Students selected for this program will be carefully chosen to participate. It is designed for fast-paced independent study, and self motivated individuals pursuing careers in allied health. We encourage employees in medical and nursing facilities working in supportive roles, such as Housekeeping, Laundry, and Dietary Services seeking advancement in their current employment to apply. These classes aim to enhance skills, knowledge, and exposure preparing students to become accomplished specialist in allied healthcare professions.

Classes will include but not limited to:

- Medical Terminology
- Anatomy and Physiology
- Medication Administration
- Dosage Calculation
- Phlebotomy
- Medical Coding
- Job Readiness

Each course is designed to ensure students grasp critical concepts and skills needed for further studies in healthcare.
