**WE THE PEOPLE HOLD YOU RESPONSIBLE!**

Mr. Rubio,

As you are aware, you are doing your country a great disservice by standing beside and behind the current Faux-President of these once fine United States. You bear much responsibility for this craven, despicable, deceitful, money-grabbing man-child seizing ungiven “powers” to do whatever he likes with no responsibility to anyone, and no consequences for his unprecedented actions.

Is your fear of trump (*a tweet for heaven’s sake! How weak are you??*) so great that you are willing to kill thousands of Americans in this all-consuming Covid pandemic? Is your need for power so great that you are willing to aid in the downfall of the United States as a world power, to become a country to be pitied and looked down upon? What *your* president once called a “shit hole?” Do you want to be forever remembered as “Little Marco” – a demeaning slur from *your* president?

We, your citizens, are deeply disappointed by the failure of the US Senate to confront the open corruption, incompetence, immorality and illegality of trump, Barr, and most of the current administration. Where are the Henry Clays, the Daniel Websters, the John McCains who resolved to defend the independence of the Congress and preserve the system of checks and balances that worked well in the past?

We have watched in dismay the carnage of the past 3 years blasted on the citizens of this country while you have stood by and bolstered his standing. SHAME, SHAME, SHAME ON YOU!!! Is your mother proud of you now??

***Your non-action will be remembered at the voting polls!***
