

Leading People Through Change®

Create a More Resilient and Agile Organization

Change can be hard. It doesn't have to be.

Organizational change is a fact of business life. Reorganizations, mergers and acquisitions, technology implementations, and other business initiatives are disruptive because they require large numbers of people to change at the same time.

Change efforts often fail because the organization and their leaders lack the framework and skills to guide their people through them effectively. Failed or stalled change initiatives waste time and money, reduce productivity and engagement, and increase employee turnover.

It doesn't have to be this way. At Blanchard®, we know that the most successful companies stay ahead of the competition by making change a part of their corporate culture. Those who know how to lead change proactively surface and address employees' concerns and involve them throughout the process, which moves the entire organization forward.

Leading People Through Change® teaches how to lead successful change initiatives. Leaders learn how to identify and address the predictable questions employees have and how to resolve their concerns to increase their buy-in and commitment.

Leadership Strategies

A proven approach to leading people through organizational change

A Proven Formula to Develop Change Leaders

When people are given the opportunity to be involved in the process, and their concerns are heard and addressed, they are less likely to resist change. When you have buy-in and commitment early on from the people you are asking to change, they will feel good about the direction of the organization and you'll get results faster.

Don't risk wasted time, effort, and money on failed change initiatives. Equip your leaders to improve their chances of success.
