WHAT MAKES ATHLETIC THERAPIST DIFFERENT?

In my opinion, I think we are more aggressive with our exercises throughout all stages of healing. As a result, athletes and everyday people bounce back a lot quicker. In my case, my hands are my greatest asset. I don't need fancy expensive equipment to carry out treatment. Our training working with muscles, joints, and bones gives us exceptional hands on skills which might be breathe of fresh air for some!

Calling on mom, dad, granny, brother, sister, boyfriend, wifey to STOP living with pain.  
It's not normal!
