

# MOLDONIX – USER INSTRUCTIONS

SDS and User Instructions available online: [www.naturfect.com](http://www.naturfect.com)

**MOLDONIX** Penetrating Mold Stain Remover is a professional strength deep mold stain remover, specifically formulated to react instantly on surfaces such as:

- Wood
- Lumber
- Plastics
- Concrete
- Stucco
- Cinder Block
- Vinyl siding
- Fibreglass

## PERSONAL PROTECTIVE EQUIPMENT:

**Gloves** – Wear chemical or rubber gloves.

**Respiratory** – NIOSH/MSHA approved air-purifying respirator equipped with acid mist cartridges for concentrations up to 10 times the TLV. Use a supplied air respirator if concentrations are higher or unknown.

**Eyes** – Use chemical safety goggles and face-shield when there is potential for eye contact.

**Clothing** – Rubber apron, rain jacket, pants or overalls, as appropriate.

**Footwear** – Neoprene or rubber boots.

## HOW TO APPLY

- Apply with pump sprayer.
- **MOLDONIX** is ready to use without mixing.
- Shake before using
- Spray surface until thoroughly covered and allow stains to disappear.
- Heavier stains may require a second treatment or abrasion of surface with a wire brush to increase penetration.
- No rinsing required.
- MOLDONIX performs best when applied to dry surfaces.
- Freezing temperatures or frozen materials may reduce the effectiveness of the product.
- MOLDONIX is a corrosive substance. Avoid contact with copper, aluminum, steel, duct work or other metals. If contact occurs wash these materials with soap and water.
- Do not use on painted or finished surfaces, clothing, carpet, fabrics, floor coverings, mechanical equipment, and vegetation.

## FEATURES AND BENEFITS

- Professional Strength
- Ready to use formula
- Easy application using a pump sprayer
