Simon Florey & Son marquees

A little bit about us.

For more than forty years the Florey name has been synonymous with excellence in the event hire industry. Floreys is not a faceless corporation - it is still proud to be a family-run business that continues to deliver a world-class quality service.

All of our staff are full time and are experts in our field. We have very high standards in Health and Safety and are members of industry governing bodies including MUTA and the British Safety Council. All of our staff are trained and experienced in the areas of work they carry out and we are continually investing in training our team so they are all up to date and aware of any new government legislation

Each project is unique and provides a platform for our creative approach and vision to bring your special event to life. Many clients comment on the level of our service, our keen eye for detail ensures the commission runs smoothly every step of the way.

Over the years we have worked on thousands of events and no two are the same. We have worked all over the UK and have even occasionally got our passports out to work abroad to show our immaculate structures on the other side of the water. We enjoy meeting the challenge of working on different sites week in week out, achieving what our clients want and experiencing new demands on our resources and ingenuity.

We create new ideas and are not afraid to push boundaries, to evolve our methods and yet maintain our standards and services at their highest quality. Every year we come up with new concepts and solutions, colours and layouts to try and stay ahead of the field.

With our personal touch, along with owning the very best structures to hire, we feel there is no better contractor you could appoint to work alongside.

Florey Speech Days, Graduations & Balls

We have the equipment to create large event spaces with the ability to seat 3,000 guests under one roof. With state of the art flooring systems, we are able to level sloped surfaces and create multi level rooms.

Our equipment, including our forklifts and trailers, is designed so as not to damage courtyards. Marquees can be supplied with soft and solid walls including glass panelling, internal linings, pleated linings, flat linings, black out or tailored tack off lining.

We have the contract for being the preferred supplier to Oxford University. We are regularly creating graduation marquees, balls and speech day structures for many of the schools and colleges.

“Having worked with Florey Marquees on a number of occasions I would highly recommend them.”

Kate del Nevo
Venue hire & marketing manager
Oxford Bodleian Libraries

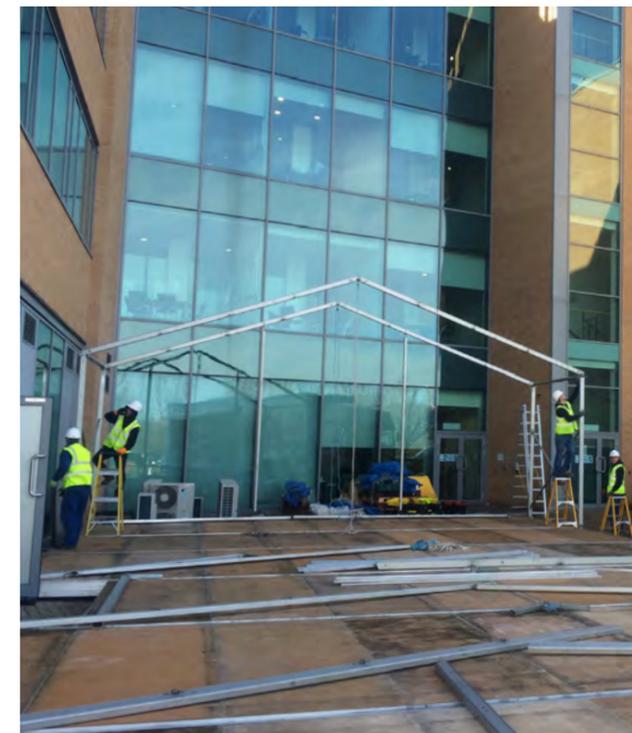

Florey Corporate Events

At Floreys we understand how important it is for you to have a reliable partner in order for your event to proceed smoothly. We have many years of experience in corporate hospitality, product launches, balls, seminars, speech days, award ceremonies, presentations, public sporting events and fundraising events. We love a challenge of creating something new and quirky, so please let us know your ideas to see what we can achieve together.

We hold in stock literally hundreds of marquees in various styles and sizes. All of our structures are pristine and are made in Germany or the UK ensuring you are getting a first class product.

Using the cassette flooring system we can construct multi-level rooms which are ideal for corporate events and can level any site with our floor stack system, raising marquees up to 2m in height on slopes or falls. Whether your company wants to host a more traditional event, or you need a structure with all the latest equipment, we can fulfil your needs. We have a wide choice of structure sizes and interior finishes including 'tack off' linings.

We supply soft walls or solid walls, including glass panels. The marquees can have peaked or curved roofs, clear or solid finish; the interiors can be finished in flat or pleated linings, black out, or one off tack-off linings, in almost any colour. We can actually manufacture the linings for you to match your exact RAL colour if requested. We also supply lighting, power as well as furniture to suite your corporate feel and taste.

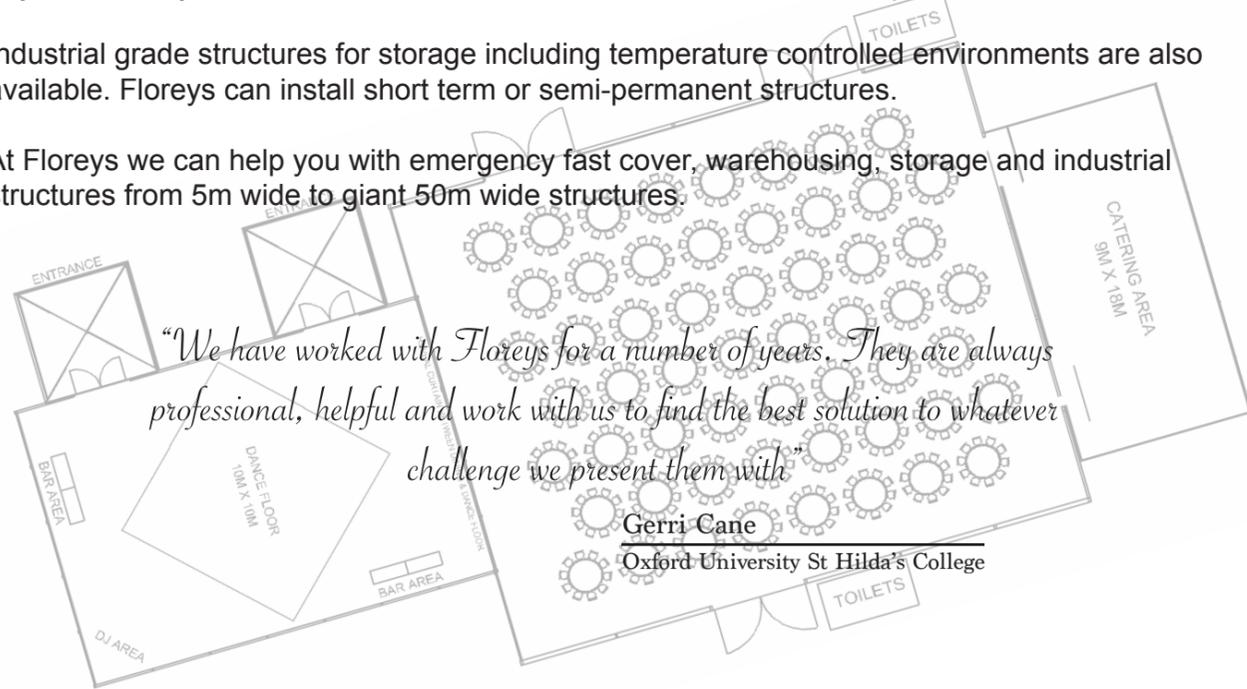

Florey Storage & Semi Permanent Structures

Fully insulated temporary structures can be installed for long term office use, student study and facilities management. Fully functional, fit for purpose spaces for everyday use are all available in any size. Florey structures are modular so will fit into most available spaces on all surfaces.

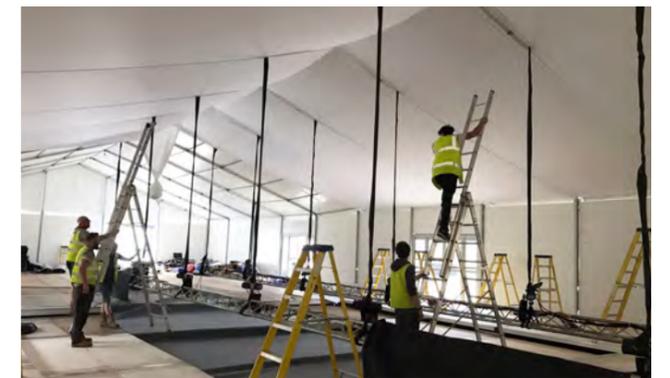

Industrial grade structures for storage including temperature controlled environments are also available. Floreys can install short term or semi-permanent structures.

At Floreys we can help you with emergency fast cover, warehousing, storage and industrial structures from 5m wide to giant 50m wide structures.

"We have worked with Floreys for a number of years. They are always professional, helpful and work with us to find the best solution to whatever challenge we present them with"

Gerri Cane
Oxford University St Hilda's College
