

Every electrified commercial door hardware opening should include professional, accurate and functional documentation to ensure safe, and correct operation of the specified products.

Controlled Door Solutions offers the **CD-001DK**, Drawings Kit, to provide the detailed information required by installation contractors.

CD-001DK

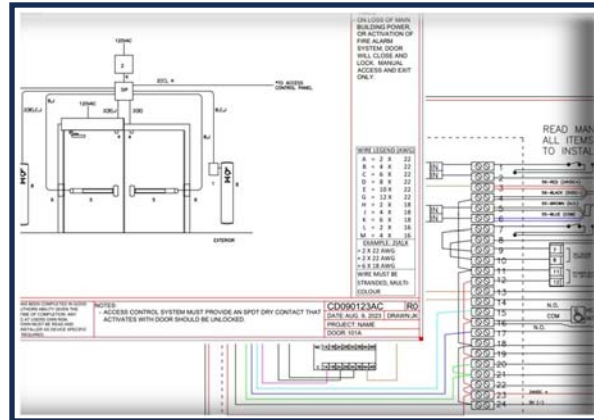

Includes:

- 1 ea. Custom Elevation Diagram
- 1 ea. Custom Termination Diagram (Point-To-Point)

Information Shown On Drawings:

Elevation Diagram:

- Product Part Numbers (if provided) otherwise generic identifier will be shown.
- Number and suggested size of conductors (wires), and where they need to be pulled to/from.
- Description of operation (based on information provided during order (001DKOF)).
- Visual representation of the complete system.
- Project Details

Termination Diagram (Point-To-Point):

- Colour coded connection diagrams of all required products needed to perform the requested functionality.
- Detailed locations of all connections.

Delivery:

- Drawing kits are emailed as PDF documents to the recipient indicated on the order form received.

*A completed (001DKOF) order form must be submitted for each door type.
