The Perky Kettle Gin Tonica

10

The classic. We start with a gin and tonic with juniper berries and twists of lime served the British way.

Raspberry Gin Tonica

10

Switch it up with this version that adds Chambord raspberry liquor and fresh muddled raspberries. Refreshing twist on the classic.

Cucumber Vodka Tonica

10

A super refreshing version full of fresh slices of cucumber and a lemon twist made with Vodka instead of Gin.

Pavan Gin Tonica

10

Pavan, a lovely honeysuckle floral liquor from France, is combined with our G&T to create a wonderful floral twist.

Nutty Gin Tonica

10

This whimsical version uses Amaretto Disaronna to add a nutty twist to the G&T for a whole new experience.

St. Germain Gin Tonica

10

We combine St. Germain with our traditional G&T to add the exquisite light elderflower essence to the classic.

Tsar Tonica

10

We use Vodka and Soda with lime to create our Russian version of a Tonica.

Our Tonicas

During our travels abroad we discovered the Brits were serving

Gin an entirely different way than we do here in the "Colonies." The Tonica originally developed in Spain, but the Brits have turned it into an artform with lavish garnishes and expansive glasses filled with ice. We loved them and were determined to bring this style of service back for you to enjoy.

Why You Can't Select Your Spirit!

Back in 1933, during prohibition, this part of Chester Township according to Ohio's Department of Liquor Control was dry and remains that way to this day. Because of the way Ohio's liquor laws work, (and despite there being a liquor store in the precinct) we are prohibited from selling you spirits directly but inexplicably are permitted to sell you mixed cocktails - which is what we offer. However, you can not select your choice of spirit - We didn't make this one up, we support your right to choose your liquor!

If you would like this to change please call Chester Township at 440-729-7058 and let them know you support them holding an election for Chester to be a fully wet township. Until then all we can say is - Prohibition is still alive and well in Chester!
