

# Summer Zoom Comedy Classes for Kids

***"Laughter is the best medicine and these classes give kids a safe space to share frustrations as they learn the art and science of comedy."***

—Former NY State Mental Health Official

**K**eepp your kids busy this summer with one of the best activities for summer fun — virtual comedy classes for kids on Zoom. Kids ages 10-16 have lots of time on their hands, so imagine letting your child's creative energy be redirected to learning skills that help develop personal and intellectual development, like humor and comedy. Kids in our classes sharpen their wit, writing skills, build character and confidence, and learn public speaking skills in a fun way.

The program ends with a real-stage performance in conjunction with other performing artists outside the Southampton Cultural Center's venue at the end of the summer program. Date and time will be announced.

This summer, let your child do something special and different, make new friends and feel good about themselves.

**STARTING JULY 11**
