

St. Alphonsus School Adopt a Student Program:

Our tuition is \$1,000 per year, per student that breaks down to about \$111 per month.

Since St. Alphonsus School is a private school, we use that tuition to help with our general budget needs. We do not receive funding from the state of North Dakota, like public school districts receive. We rely on outside resources to keep our school open and providing great education for our students.

We have had this program in place for 14 years and anonymous donors have helped 30 students. If you are interested in helping with the Adopt a Student program, please contact me at the information listed below. Donors' information is known to those who administer the program but is kept confidential.

We also ask that donors pray throughout the school year for the student they are helping. Students and families who benefit from the financial assistance are so grateful for the help. We also hear from donors who believe faith-based education helps our students become stronger in their faith, respectful students, and eager learners.

If you are interested in participating in our Adapt a Student Program, please fill out the information below:
