

PETER MONROE GREEN
February 12, 2023

On Sunday February 12, 2023, my husband, best friend, and partner in life, Peter Green, lost his battle with pancreatic cancer. We both knew his time was limited but were hopeful he would not leave so soon. He was the most creative and artistic person I know. His talents included painting, wood turning, song writing, sailing, surfing, designing and creating stained glass windows and sculptures, photography, and countless other hobbies and interests. He was a patient and kind person and always thought the best of everyone he met. Our life together of 52 years may be over but he will forever live on in our hearts and memories.
