

## **Online Certificate Course Announcement**

### **“Senior/Laboratory Quality Manager” (LQM / Senior LQM)**

Aligned with IPC-BD-25-007 – “Certification Scheme of Laboratory Quality Manager”.

VKCons LLC is pleased to announce the launch of its online training program for Laboratory Quality Managers, fully aligned with the IPC-BD-25-007 Certification Scheme of Laboratory Quality Manager developed by the International Personnel Certification Association (IPC).

This course is designed to support professionals working in testing, calibration, and sampling laboratories who seek to develop or strengthen their competence in laboratory quality management systems in accordance with ISO/IEC 17025 and related conformity assessment standards.

#### **Course Highlights**

- Fully aligned with IPC competence requirements for Laboratory Quality Manager and Senior Laboratory Quality Manager
- Structured online training equivalent to a 40-hour-in-class course
- Covers ISO/IEC 17025, internal audits, risk-based thinking, metrology, quality control, and accreditation preparation
- Practical, application-oriented approach suitable for real laboratory environments
- Supports eligibility for certification through IPC-recognized Personnel Certification Bodies

#### **Delivery Mode**

- Online (live virtual sessions and/or e-learning with instructor support)

#### **Prerequisites**

- No formal prerequisites required
- Prior knowledge of conformity assessment principles is an advantage
- Recommended preparation: *Foundations of Conformity Assessment* course offered by the Conformity Assessment Society (<https://ca-society.com/courses>)

**Course dates: March 1-20, 2024**

**Course Fee: USD \$1,100**

**Preregister by February 20, 2026 and save 20%**

**PLUS**

**20% additional discount for 2 or more candidates from the same company!**
