IPC-A-610 Certified Trainer (CIT) Certification/Recertification Course Acceptability of Electronic Assemblies

The IPC-A-610 Certified IPC Trainer Certification Course is an indepth review of the IPC-A-610 Standard. At the conclusion of the Course, students will take one open and one closed book written examination. The first part is a 75-question open-book exam. Students will be required to navigate the entire document locating acceptance criteria of various soldering and assembly scenarios. The second part of the examination is a 25-question closed-book exam, which covers the Policies and Procedures of the IPC Certification Programs, along with the general requirements of the IPC-A-610 Specification. Students who successfully complete this Course are awarded an IPC-A-610 Certified IPC Trainer Certification valid for two (2) years and are authorized to conduct the Certified IPC Specialist Course.

Upon successful completion, students will receive a Certified IPC Trainer Certificate and all the necessary course materials required to conduct the IPC-A-610 Application Specialist training.

There is no soldering in the course; only lecture and required testing.
