LEAD FREE SOLDER TRAINING

This is a one-day course for either Through-hole or Surface Mount Rework

This course consists of lecture and hands-on practice. The student will understand the basis for RoHS and WEEE, materials and processes for producing quality lead-free solder connections. This is not a basic solder course; the student should have prior soldering experience before attending this course.

The Lead Free Soldering course includes:

- Introduction to RoHS and WEEE
- Lead free solder issues
- Printed circuit board plating types
- Materials, ie solder, flux
- Tools and Equipment
- Solder methods
- Solder Inspection
- Hands-on workshop, Surface Mount and/or Through-hole

Upon completion student will receive a certificate of accomplishment from Conformance Technologies.
