IPC-JSTD-001 Certified IPC Specialist (CIT) Requirements for Soldered Electrical and Electronic Assemblies

The J-STD-001 Certified IPC Trainer Certification Course is an in-depth review of the IPC JSTD-001 standard, latest revision.

To obtain certification, attendees must successfully receive passing grades on both their open and closed written exams as well as their soldering skills workmanship.

Upon successful completion, students will receive a Certified IPC Trainer Certificate and all the necessary course materials required to conduct the J-STD-001 CIS training.

The IPC Certification is valid for 2 years.

Refer to the J-STD-001 CIS Course Description for more information regarding class content.

Please call or email for pricing.
