## Afternoon Club's Program

---

**The Afternoon Club's Program is a great way for children to be exposed to a wide-range of activities, as well as, a group of friends outside of their class. Through the Afternoon Club's Program children develop their social skills, concentration and a general well-being both physically and mutually.**

### **Capoeira**

Capoeira is a fantastic opportunity for kids to be exposed to a unique blend of martial arts, music and culture. Children benefit from Capoeira because it provides a challenging aerobic and acrobatic workout, as well as, helps kids develop their confidence and self-esteem.

### **Rhythm and Movement**

Children will benefit from Rhythm and Movement because it promotes physical strength and agility. Children learn co-ordination, balance and how to control their bodies in motion. Dance is a fun way for children to develop the muscles in their body and learn to coordinate their body movements to rhythm and music.

### **Favorite Songs and Music**

Children will benefit immensely from exposure to Music and Movement at a young age. Singing, movement, playing percussion, instruments, and dancing mean that children learn and develop a range of skills for their whole development. Exposure to music through fun and engaging activities also help children to develop a love for music at an early age.

### **Mixed Media Art**

Children naturally love art and the ability to create. Art promotes creative development and this is an essential skill for problem solving and future success. This term children will engage in a variety of projects that involve incorporating and using a variety of different mediums to create masterpieces. It also helps children to develop their fine motor and concentration skills.

### **Gymnastics**

Gymnastics offers so many benefits that lead to a healthy lifestyle. Through Gymnastics children learn to control their body, as well as, develop spatial awareness.

## **Mad Science**

Our Science clubs taps into children's natural inquisitiveness to explore and understand their surroundings. Children will have the opportunity to engage in a variety of science experiments that involve hands-on experiences, as well as, helps them to develop the ability to ask questions, predict and analyze.

## **Jewelry Making**

Explore a variety of different techniques needed to make beautiful jewelry pieces. Children will have the opportunity to learn the fine craft of paper bead making, in addition to other forms of jewelry making. Jewelry making brings out the creativity in a child in different ways and helps promote their ability to problem solve through creation.

## **Story Time and Craft**

Let's combine literacy and art! Children love hearing stories and asking questions. When we attach an art activity to the story, this helps further develop their understanding of the story and extends their learning in many different ways. Story time and craft brings together the importance of creativity into literacy, making it the perfect cross-curricular club.

## Afternoon Club's Program

Our Afternoon Club's Program provides children with the opportunity to explore different extra-curricular activities that enhance their learning experience at KCIP. Through our Afternoon Club's Program children develop important life skills such as confidence and creativity. We will have two sessions for both our older and younger children. The following classes are for Term 3 (10th April-22nd June)

<b>Session 1 (ages 2-3 years old)</b>		<b>Session 2 (ages 4-5 years old)</b>		
<b>1:30-2:10pm</b>		<b>2:20-3:00pm</b>		
<b>Monday</b>	<b>Tuesday</b>	<b>Wednesday</b>	<b>Thursday</b>	<b>Friday</b>
<b>Capoeira (S)</b>	<b>Rhythm and Movement (S) Science (TL)</b>	<b>Favorite Music and Songs(S) Jewelry Making (TL)</b>	<b>Mixed Media Art (S)</b>	<b>Gymnastics (S) Story Time and Craft (TL)</b>

The fee for activities 5 days a week (Monday-Friday) is \$300 USD per term. If your child wishes to participate in a specific activity the fee is \$80 USD for a specialist teacher led club and \$60 USD for a teacher led club per term.
