8. How OEM Works for Eczema Cream

1. Select Base Formula – Choose from pre-tested gentle bases.
2. Choose Key Actives – Ceramides, oatmeal, aloe vera, zinc, etc.
3. Adjust Texture & Finish – Rich cream or lightweight lotion.
4. Customise Packaging – Tube, jar, or pump.
5. Sample Creation – Review texture, absorption, and feel.
6. Safety & Efficacy Testing – Dermatology tests for sensitive skin.
7. Bulk Production – After formula approval.
8. Final QC & Delivery – Ready for branding & sale.
