

Meal Replacement Powder – Complete Nutrition Shake

Category: Functional Food / Weight Management / Nutrition

Fuel your day with balanced nutrition in every sip. Our Meal Replacement Powder delivers protein, fibre, healthy fats, and essential vitamins in a convenient, delicious shake ideal for busy mornings, weight control, or post-workout recovery.

We create customised meal replacement formulas to meet specific goals, such as weight loss, energy boost, muscle gain, or general wellness. Choose from plant-based or dairy protein, low-sugar formulas, and a wide variety of flavours to match your brand.

3. Key Features

- Complete macronutrient balance (protein, carbs, fats)
- Fortified with vitamins and minerals
- Options for low sugar, high protein, or keto-friendly formulas
- Suitable for weight management, sports nutrition, or general wellness
- Instant mixing with water or milk
- Gluten-free & dairy-free options available

- Matcha Latte
- Strawberry Smoothie
- Cookies & Cream

8. How OEM Works for Meal Replacement

1. Define Purpose – Weight loss, sports, wellness.
2. Choose Protein & Nutrient Blend – Plant, whey, casein, or mixed.
3. Select Flavour & Sweetness Level – Natural or artificial.
4. Customise Packaging – Sachets, tubs, pouches.
5. Design Your Branding – Logo, labels, health claims.
6. Sample & Taste Test – Finalise flavour and texture.
7. Mass Production – GMP-certified facility.
