

Slimming Cream – Firming Body Sculpt

Category: Body Care / Slimming & Shaping

Achieve a more toned and defined silhouette with our Slimming Cream, formulated with active botanicals and firming agents that support fat-burning, improve skin elasticity, and reduce the appearance of cellulite. Ideal for customers seeking a non-invasive body contouring solution.

We offer custom formulations with natural extracts, heat-therapy effects, or cooling sensations. Your brand can choose actives, fragrance, cream base, and packaging to create a unique slimming cream that matches your positioning.

3. Key Features

- Supports fat metabolism & body contouring
- Reduces cellulite & firms skin
- Options for warming or cooling effect

8. How OEM Works for Slimming Cream

1. Select Desired Effect – Warming, cooling, firming, or detox.
2. Choose Key Ingredients – Caffeine, capsicum, herbal actives, essential oils.
3. Customise Texture & Fragrance – Creamy, gel-cream, or lightweight lotion.
4. Decide Packaging Type – Tube, jar, pump.
5. Branding & Design – Logo, slimming claims, safety highlights.
6. Sample & Approve – Test effect & absorption.
7. Mass Production – GMP-certified facility.
