Fresh Food Chain of Custody Logistics and Traceability Solutions

Bajatrace protects your brand and your customers. In case of an alert and a potential product recall, we provide you with the ability to quickly isolate the source and take the appropriate actions to prevent any further damage. The speed in which you can track your products will greatly reduce your exposure to risk and the production costs involved.

Bajatrace is a scalable, configurable, and expandable, Software as a Service (SAAS) platform for the fresh food industry (farm to fork) that enables unprecedented traceability by linking all trading partners in the supply chain, while increasing efficiencies resulting in improved ROIs for all participants.

Period for compliance with Food Safety Modernization Act
