Pheasants Forever & Quail Forever Promote Nate Case to Coordinating Grazing Lands Biologist

Case will provide landowners in Missouri with technical assistance focused on grasslands and grazing native forages

Houston, MO – July 16th, 2025 – Pheasants Forever and Quail Forever in Missouri is excited to announce the hiring of Nate Case to serve as the Coordinating Grazing Lands Biologist (CWB) position. Case started his new role on July 1.

The Coordinating Grazing Lands Biologist (CWB) position is made possible through a collaborative effort among the Missouri Department of Conservation, the U.S. Department of Agriculture's Natural Resources Conservation Service, Ducks Unlimited, and Quail Forever to further the delivery of the native grassland programs in Missouri. Case stationed in Houston, Missouri, will provide grazing and wildlife technical assistance for associated Farm Bill conservation programs to agricultural producers and landowners in Missouri, primarily focusing on priority landscapes. He will also work collaboratively to promote the grazing of native forages by working with local communities, producers, and partner agencies.

“Nate brings a strong background in grazing management, focusing on native forage systems. His expertise has been instrumental in his current role in Houston and will be a valuable asset in this statewide position,” said Missouri State Coordinator Andrew White. “I greatly look forward to seeing you excel in this role and take the position to new heights!”

Case grew up in Salem, Missouri, where he was heavily involved in 4-H and FFA. He then went to the College of the Ozarks, graduating with a Bachelor's in Conservation and Wildlife Management in 2023. He has worked for Pheasants Forever and Quail Forever as the Farm Bill

Wildlife Biologist in Texas, Howell, and Wright counties for the last year. His wife, daughter, and he recently moved back to Salem to their family farm.

“My goals as a young professional were to learn everything I could to help the producers who raised and taught me growing up. I look forward to continuing that education and assistance,” said Nate. “I am extremely excited to be working with producers across the state to help them meet their goals by putting habitat on the ground and promoting our native grasslands.”
