

**CAZADERO COMMUNITY SERVICES DISTRICT  
PO BOX 508  
CAZADERO CA 95421-0508**

April 12, 2018

Ms. Lynda Hopkins, Supervisor 5<sup>th</sup> District  
County of Sonoma  
575 Administration Drive  
Santa Rosa CA 95403

Dear Supervisor Hopkins:

During the monthly board meeting of the Cazadero Community Services District, we discussed road repairs on Cazadero Hwy. from Hwy 116 to the "Y" split between Ft Ross Rd and King Ridge Rd.

I reviewed the notification I received from TPW postponing the FDR Phase II on Cazadero Hwy until 2019. The question then was raised by another board member whether the undercut portions of the roadway would be repaired during 2018.

Two portions of the roadway (near 4250 and 6245 Cazadero Hwy) appear to be degrading with additional undercutting from this year's recent rains. Visual cracking of the pavement surface and elevation changes (depressions) have been reported by residents. As you know, school busses travel this road daily along with other heavy vehicles (logging trucks, delivery trucks etc.) which may be contributing to further roadway failure in these specific slip-out areas. Residents have reported concerns regarding safety issues.

We request TPW re-inspect the areas noted above and report out their plans for an estimated timeline to correct the situation.

Thank you.

Sincerely,

Michael C Nicholls, President  
Cazadero Community Services District
