What is a "Humanitarian" ? I believe it is a person who has a deep rooted love of [humanity](#)—love in the sense of caring for, nourishing, developing, or enhancing; humanity in the sense of "what it is to be human....."

Boe Trumbull completely and selflessly embraces that of a humanitarian..

His ethic of kindness, benevolence and sympathy extends universally and impartially to all human beings ..... He stands in complete integrity.

He has gone above and beyond to rally those close to him to not only help insure that The Life Group LA can continue to provide support..... for those who feel that they are alone and without resources.

He has also shown his support to many charitable organizations and human causes for which he feels passion and a calling.

It is through him we find love, inspiration and faith.....

He is compassionate presence.

Respectfully and lovingly,

Sunnie Rose  
Executive Director  
The Life Group LA
