## ABOUT

**Pamela Encinas** (b. 1988) is a Mexican-Spanish multidisciplinary visual artist who explores emotions and human connection through color and form. Educated at the Academy of Fine Arts in Florence, Italy, and shaped by years of living across Europe and the Americas, her artistic vision reflects a fusion of cultural influences and personal experiences.

Her practice spans painting, collage, assemblage, and other mixed media—balancing vibrant palettes and textures, creating volume enriched with playful, intricate details. Through these layered approaches, her work evokes introspection and imaginative storytelling.

Based in Houston, Texas since 2016, while maintaining close ties to her native Mexico and beloved Tuscany, Pamela draws inspiration from her daily surroundings and these timeless cultural landscapes.

Her work has earned recognition both locally and internationally, with solo and group exhibitions and collaborations with reputable institutions such as the Holocaust Museum Houston, the Consulate General of Mexico in Houston, the French-American Chamber of Commerce of Texas, the Houston Symphony, and the Alliance Française de Houston. She has also participated in international competitions, with her work notably held in private art collections abroad.

Pamela's art invites viewers to engage with the beauty of everyday life and the emotional windows of the human spirit.
