

# THE *HISTORY* IN GREAT FALLS' BACK YARD!

The Great Falls area has been home to folks for a long time. Here in our own backyard are numerous historic buildings, still in use and much loved. One of those buildings is **Smith Chapel**, which has been a Methodist Church since its dedication in **1893**! It's the oldest church building here and has some of the area's biggest oaks and a beautiful gazebo too. (Pictures on the left) Bring the family and join us for an evening of **History** – learn over a complimentary **Summer Buffet** about how Smith Chapel came to be, how it got its name, and a bit about the founding residents who brought it into being. After you visit, you will have a better idea of how this lovely little community came to be today's Great Falls!
