

Craig Rash • Short-Term Missionary in Zambia

05/05/2021

We have been working on the church building for the past two weeks. The foundation is done, and now we are working on the block walls. We also have the best metalsmith in Chipata welding the window frames, door frames, and roof trellises. The builder will have to leave, but the most important part is complete.

This past weekend we visited the safari park! Lions, leopards, giraffes, and hippopotamuses were spotted among the hundreds of impalas. We even saw a few elephants at a distance.

Yes, that is a hippo grazing in someone's lawn.

Living in Zambia has been amazing so far. I have worked with the Zambians, talked to them, eaten their food, taught children's church, watched the medical team, and learned from Pastor Beaman. Through these experiences, I realize that I have much to learn as I find the aptitudes God has given me so that I may be the best benefit to the church. I believe this internship has been highly informative by helping me realize that I need to discover more about myself.

After talking with Pastor Beaman, it made sense for me to return to the States and begin working on further discovering and developing my giftedness. I look forward to seeing the people at Lighthouse Baptist Church this May.
