

THE LOST STRINGS

THE LOST STRINGS *Who is that?*

The Sounds of India's country-side meets the modern hip-hop and rap scene. A New Era of East meets West.

The Lost Strings music incorporates a rare Indian classical instrument, called the Dilruba (Dil-roo-bah). Dilruba in Persian language means an instrument that enlightens the soul. Capturing sound of this amazing instrument is a great feat due to the depth and span of its frequencies. The Lost Strings has brought new life to these forgotten sounds, fusing it with modern hip-hop and rap beats to bring listeners something entirely unique.
