Proposal for the UK companies

Architecture and Design Services from Ukraine

Proposal to a Potential Partner
Architectural Firm in the EU

We express interest in the possibility of cooperation with your company, which specializes in the design of civil and industrial facilities.

Within the framework of our cooperation, we propose to consider the execution of orders received from your European clients, involving our team of specialists on an outsourcing basis.

Our professional experience and competitive conditions in Ukraine open up great opportunities for the implementation of high-level design work for European customers at optimal prices.

We see huge potential in working together.

Our goal is to create a mutually beneficial partnership, where we can jointly provide high-class solutions for the EU market, using your competencies and experience. We are ready to discuss the details of our proposal and further steps to build a productive cooperation.

Partner in UKRAINE

LLC "Raden Company" is the leading architectural firm in Ukraine.

Since 2004, we have been developing urban planning documentation and projects. Our integrated approach and experience are our advantage.
