

10th Annual Alex Labbe Mini Golf Open

Alex was born with Hypo-plastic Left Heart Syndrome, (HLHS). He endured 5 open heart surgeries and 3 strokes in his short 13 years. Even with all his challenges he always had a smile and never felt different. Mini Golf was one of his favorite things to do. Not able to use a putter, he could roll the ball like a pro. He was very competitive and of course always won.

In the summer Alex attended the Brunswick Rec Department summer camp. He loved being with the other kids and the staff were very supportive of his disabilities. We are excited to bring this experience to other kids. With your help we can send kids to camp again this year, and also assist with the care of families, by supporting Maine Health Barbara Bush Children's Hospital, all while having a great day playing mini golf.
