Fire Extinguishers

Fire Extinguishers

This class meets OSHA 1910.157, for companies that have and furnish fire extinguishers at their facilities, and will be used by their employees as per the standard.

Students will learn basic fire theory, the fire triangle, incipient stages of fire and the hazards associated with this.

They will learn the classes of fire and the classifications of fire extinguishers to be used, the general inspection and use.

Students will put out an actual fire.

“WE Can Bring It to you!”
