Level two or the Advanced Tactical Rappel class takes the student to a more advanced level of rope and rappelling.

The class covers the equipment needed to execute a rescue or extraction and the proper techniques to perform these maneuvers.

The students will be doing window entries, simulated elevator scenarios and performing extractions. The use of simunitions or soft shot will also be used.

Students will engage targets while locked on line, as well as doing entry.

At least one night scenario will be included.
