Problem Solving	Critical thinking skills	Project Documentation

PROFESSIONAL EXPERIENCE

Borscht

Level Designer (Source 2)

Oct 2024 - Current

Counter-Strike 2 map for the "Wingman" game mode that is set in a derelict Borscht Belt resort in the Catskills region of upstate New York.

- Utilizing Source 2 engine for development
- Working independently with support from industry professionals
- Setting and maintaining development pipeline and documentation
- Solving problems as needed to further development
- Fostering community playtesting sessions to gain critique for iteration

Untitled Horde Shooter

Systems/Level Designer (Unreal 5)

Jun 2024 - Current

A first-person co-op horde shooter with a heavy focus on diegetic and reactive gameplay, resource management, and team coordination with an AI Director constantly keeping track of players and managing enemies to help make each encounter feel dynamic.

- Utilizing Unreal game engine for development
- Working with design team for systems design, level design, and building out gameplay features
- Utilizing Agile Scrum methodologies during development
- Working collaboratively with team members across multiple disciplines
- Fostering communication with industry professionals to support development
