PROFESSIONAL EXPERIENCE |

Holmes Regional Medical Center – Health First

Melbourne, FL

Registered Nurse: The Joint Center (Sept. 2023-present)

- RN on orthopedic pre-and post surgical care unit.
- Actively care for orthopedic and spinal surgery patients and collaborate with interdisciplinary team members to provide comprehensive care.
- Generate and implement patient care plans, admit and discharge patients, educate patient and family on procedures and post-operative care.

Life Care Center of Palm Bay

Palm Bay, FL

Charge Nurse: Skilled Nursing/Long-Term/Memory Care units (2023)

- Part of rehabilitation staff collaborating closely with therapy team. Documented skilled nursing notes in PointClickCare.
- Responsible for medication cart, administration and monitoring inventory of narcotic medications, wound care, ostomy care, PEG tube feedings, and education to patients and family.

Maxim Healthcare

Orlando, FL

Home health Nurse (2023)

- Made home visits for pediatric patients.
- Administered medications as scheduled, interacted with patients using toys, set-up favorite videos to watch, and assisted family members with diaper changes and taking patients for walks in their wheelchair.

VITAS Healthcare

Melbourne, FL

Hospice Nurse (2022)

- Scheduled visits to hospice patients in rehab and memory care facilities. Made daily assessments, evaluated medication effectiveness, and provided wound care. Ensured equipment and personal products were in sufficient supply and ordered as needed. Documented on paper charts, and set up Crisis Care as needed.
- Worked closely with MD and NP in obtaining orders. Attended weekly Interdisciplinary Group meetings to update MD, Team Manager, and Chaplain of patient progress and discuss care plans.
- Participated in bereavement process for families by writing cards and attending memorial services.

Melbourne Regional Medical Center

Melbourne, FL

Registered Nurse (2020-2021)

- Experience in Progressive Care Unit (PCU) and Operating Room (OR) departments.
- Provided Acute Care while in PCU, which involved rehab medicine, pre-operative procedures, wound management, IV medication administration, and following detox protocols.
- As an OR nurse, prepared patients for elective surgery, obtained medications for anesthesia providers, managed equipment during procedures, handled pathology specimens, and brought patients to PACU afterwards.
