

BEVIER-EVANS FOUNDATION

Female Empowerment Now!

MISSION: Through the development of strong partnerships and funding sources, we can accomplish our mission of providing financial and educational support for females in skilled trade careers; and performing arts students in dance & theatre.

ABOUT US: Bevier-Evans Foundation is a Detroit based 501c3 non-profit organization. Co-Founders Dawn (Bevier) Tarpinian and Monica (Evans) Davie are lifelong friends that share the vision of supporting females in their career and educational paths. Our focus is on skilled trades and performing arts. The Bevier-Evans Foundation was launched in December 2019 and with the financial support of family and friends we have provided several recipients with funding to further their education and trade certifications.

SUPPORT US: Please support our efforts through donations, grant opportunities and volunteering. Scan the QR code or visit our website, femaleempowermentnow.org for ways you can donate and support us. You can also contact us at bevierevansfoundation@gmail.com. ***YOU can make a difference!***

CONTRIBUTIONS: For every \$2000 received, Bevier-Evans Foundation can provide funding to one (1) female in skilled trades or performing arts. This minimum amount gives each recipient the ability to offset costs needed for education/certifications, uniforms, tools, transportation, daycare and more. Each donor that gives a minimum of \$2000 is recognized on our website and all marketing information created during the year of receipt.
